

Early Spring Scavenger Hunt

- 3 different types of birds** - can you tell what kind they are?
- Flowers starting to grow** (hint: look for small green leaves coming out of the ground)
- A squirrel eating** something
- Buds growing** on a tree or bush
- A rabbit** (this may be a challenge, but with the warm temps, who knows!)
- Something rough and something smooth**
- Look for **one yellow** item, **two red** items and **one white** item
- Listen for a bird** - then copy it's sound
- Animal tracks** - you'll have to look carefully for these
- Tree seeds** - like pine cones, helicopters, etc.
- 5 different types of trees** - since most won't have leaves, you can tell they are different in early spring by the bark on the tree
- An animal** that's **not** a squirrel, rabbit or bird - what are they doing?
